

## GRANTS FOR TEDMED DELEGATES

# The **TEDMED** Patron Fund

**TEDMED is a community of people who are passionate about imagining the future of health and medicine.**

Once a year, some 1,200 adventurous thinkers and doers converge on the Kennedy Center in Washington, DC for three exciting days of high-tech innovation and unmatched inspiration.

From Nobel Prize Laureates to leaders in more than 300 different disciplines, the TEDMED community includes thoughtful individuals and institutions from all sectors of society: medicine, the sciences, business, law, technology, government, religion, education, the armed forces, media & communications.

The Patron Fund allows TEDMED to invite committed people and organizations from every field, without regard to their ability to pay, to join with us to contribute their time, passion and best thinking as we *explore the promise of technology and the potential of human achievement.*

The TEDMED Patron Fund also allows us to share this magical event through TEDMEDLive simulcasts... which are broadcast nationwide to tens of thousands of viewers at teaching hospitals, magnet schools, key government agencies, universities, research institutions, medical schools and other non-profit institutions.

GRANTS FOR DELEGATES TO ATTEND TEDMED ON A NEEDS-BLIND BASIS (NOT A 501c-3).

## Imagination. Innovation. Inspiration.

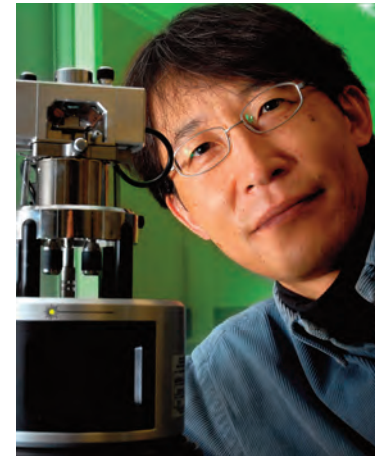

For anyone who is passionate about surprising new thinking, new discoveries and new innovations in health and medicine—and about meeting equally extraordinary people who share those same passions—TEDMED offers a life-changing experience.

TEDMED brings together a carefully curated, handpicked assembly to serve as Delegates. Half of our Delegates are medical experts who represent many different disciplines.

The other half represents various non-medical fields. TEDMED Delegates have been vetted through

**TEDMED** is committed to attracting Delegates on a needs-blind basis.

For many Delegates, **TEDMED** is a life-changing experience.

an approval process or have been nominated by an independent admissions board. This is a highly accomplished group, yet some cannot participate without assistance from The TEDMED Patron Fund.

The Fund enables these diverse professionals to connect with the TEDMED community. It is this multi-disciplinary collaboration that is necessary to better understand the great challenges in health and medicine and to effectively translate that knowledge into action.

The Fund also supports the distribution of TEDMEDLive HD simulcasts to non-profit teaching hospitals, universities, foundations and the press, and free short documentary films at tedmed.com.

## The TEDMED Patron Fund Makes it Possible for Delegates from a Wide Range of Fields to Attend **TEDMED**.

Grants support Delegates from all disciplines and organizations with either a partial or full subsidy to attend the TEDMED conference.

Non-Profit Startups

Nuclear Medicine
